BALLOT GUARDS MAY FACE MANY PAYLESS PAYDAYS

Who Is to Pay Them Is the
Problem for Six Valiant
Watchmen

Who is to pay the wages of the six guards now watching bags containing the ballots of the last election pending possible election contests and court decisions?

This is a matter that is certain to cause some disturbance in varied circles in the court house before it is decided.

Financial Problems Again.

It is understood that three of the guards were employed and assigned to the guarding of the ballots by Lester Tiffany who retired as sheriff on Tuesday. It would seem that at least these three could be certain of getting paid but several members of the board of supervisors intend to oppose D. J. approval of such a bill contending that such costs should be borne by the candidates interested in protecting the ballots.

On the other hand the various candidates involved in the election squabble are somewhat short of funds after having passed through expensive campaigns and if the payment of the wages of the guards is left to them these workers will probably wait a long time for their money.

Must Remain on Job.

The guards who are on the job day and night will remain on duty until the ballots are impounded or the issues are now settled.

It is believed that the amount due the guard already exceeds \$500 and it will likely exceed \$800 before the issue is determined.

ANNOUNCE FOURTH CONCERT BY GRADE SCHOOL PUPILS

Christmas to Be Theme of
Music Program on
December 14

The fourth annual concert by Antioch Grade School pupils will be presented at the high school auditorium the evening of December 14 at eight o'clock, Principal Ralph E. Clabaugh announced today.

The program will be under the direction of Hans Von Holwede, director of music, who is being assisted in the preparation of the program by the teachers of the first five grades—Mrs. Lux, Miss Galliger, Miss McCullough, Miss Wilson and Miss Mason.

The tentative program as announced by Mr. Von Holwede will include "The Pied Piper of Hamelin" by the sixth grade; vocal numbers by children of the first five grades; medley of waltzes interspersed by solos, by the grade school band; mixed chorus of 6th, 7th and 8th grade pupils singing three-part songs; and selections by the "Spafford Street Five." Christmas music will have a prominent part in the program.

Admission for adults will be 25c and high school students will be admitted for 10 cents.

83 Pupils Have Perfect Teeth

Forty-one per cent of the pupils at the grade school have perfect teeth, according to Drs. L. John Zimmerman and L. J. Lutterman, Antioch dentists who have just completed the examination of 177 pupils. The dental clinic was under the sponsorship of the Parent-Teachers' association, and the records of the work done become a part of the permanent record of the school.

"Parents of grade school children may have access to these records at any time," Prin. Clabaugh. "Dental work done on children's teeth should be reported so that the correction may be entered on the card records which are kept from year to year."

Mr. and Mrs. Elmer Rentner, Mr. and Mrs. Alonzo Runyard and daughter, Billie Mayo, Mr. and Mrs. Arthur Wiley and daughter, Vida, Mr. and Mrs. S. T. Smith, Waukegan, were guests of Mr. and Mrs. E. L. Kemp, in Chicago Thanksgiving day.

S. E. Pollock conducted the church services at the Ingleside Community Church Sunday morning and at the Fox Lake M. E. Church Sunday evening.

Oh, here he is again the jolly old boy
Heavily laden with Christmas joy.
Ruddy and rotund, joyous and gay,
The life and spirit of this holiday.

Will Gravel Street; Take Pay In Water

The Mehlahn Construction Company, contractors on Route 173 paving, will gravel the short street adjacent to the village property at the water town and connecting with Orchard street and take pay for the job in water to be supplied by the village for the contractors use in the state highway paving. It was announced following the December meeting of the village board Tuesday night.

Mr. Mehlahn was present at the session and offered to gravel the street 20 feet wide at 90 cents a yard. His offer was accepted.

Antioch Masons to Observe Past Master's Night

Sequoia Lodge will observe past master's night here Friday when the first degree will be conferred on a candidate with Masonic past masters occupying the chairs. Many visiting Masons from neighboring lodges will be in attendance. Supper will follow the meeting.

The Rev. and Mrs. J. E. Charles spent Thanksgiving Day and Friday in Kankakee, where on the afternoon of Thanksgiving day Mr. Charles conducted the Thanksgiving Day service and preached to over five hundred patients and attendants at the State Hospital.

COUNTY MOURNS BROCKWAY DEATH

County Recorder Succumbs
to Heart Attack; Was
80 Years Old

County Recorder Lewis O. Brockway, 80 years old, died at his home, 930 Hickory street, Waukegan, early Thanksgiving morning from a heart attack.

He had been ill for a week and it was believed he would recover, however, two days before his death his condition changed for the worse. Mr. Brockway was dean of all county

officials in years of service in a public capacity. He had been a court attaché since 1893 and had been county recorder for the last 34 years.

Born in Elm township in 1854 he had been a lifelong resident of the county with the exception of three years, 1890 to 1893, when he was clerk in the department of interior at Washington. Previous to his Washington employment he had taught school for a number of years in Lake county. Returning from Washington in 1893 he became deputy county clerk under the late Al Hendee, father of the present county clerk. In 1900 he was elected circuit clerk and recorder. He held the joint offices until 1924 when the increase in population of county made it necessary to divide the office. Mr. Brockway remained as recorder, and his son-in-law, L. J. Wilmet, was elected circuit clerk.

BOARD ASKS FOR BIDS ON ANTIOCH SEWER PROJECT

Estimated Cost Is \$5,000;
Secured PWA Grant to
Help Finance

Bids for the construction of Antioch sewer extension project will be opened December 18, according to an announcement made today by the Board of Local Improvements.

The project, which is to be financed in part by the Federal Emergency Administration of Public Works, includes the laying of approximately 1450 feet of six inch and eight inch sewer pipe in Harden and Spafford streets and the construction of an underground sewage pumping station. The pumping plant is necessary because of the lower elevation of the south 437 feet on Spafford street and Harden street. The pumping units, automatic in operation, will raise the sewage in the line which will connect with the village system at the highest point in Spafford street. Thence it will be carried through the Lake and Main street sewers to the septic tank.

PWA Project.

The cost of the improvement, according to James Anderson Company, engineers, will be \$5,000. Payment for the work will be made partly in cash secured by the village from a grant of the Federal Emergency Administration of Public Works, about \$1,400, and partly in special assessment bonds to be issued in connection with the project. Approval of the levy for the special assessment was granted Friday at the court hearing in Waukegan. The public benefit part of the cost will be \$600, which will be paid by the village at large out of the general fund.

By reason of the grant of funds from the government all PWA requirements must be complied with, and all bidders are required to be skilled in the character of the work and shall have actually performed work of the same nature. Bidders are required to file records of their qualifications, and to deposit with Mayor George B. Bartlett ten per cent of the total amount of their bid as a guarantee that a satisfactory bond will be executed upon awarding of the contract.

MANY CANDIDATES FOR BROCKWAY POST

Position Will Be Filled by
the Lake County
Board

Many candidates are in the field to succeed the late Lewis O. Brockway as county recorder. Including both Democrats and Republicans from all parts of the county, it has been reported by members of the county board of supervisors.

Under the law the county board will act to fill the vacancy when it meets Tuesday of next week. Until a successor is appointed and qualifies for the office, the deputy, Mrs. Anna Brockway, widow of the late recorder, will serve.

Among the candidates who are said to be eyeing the office are: Justice of the Peace Henry F. Wallenwein, the "marring squire," William D. Quette, all of Waukegan, and Edwin Quette, all of Waukegan, and Edwin Burgess of Lake Forest. Each has asked certain supervisors to support them for the office, it was learned.

It is understood that William J. Stratton is being sounded out as a possible candidate for the office. In view of Stratton's record as secretary of state, it is said that many supervisors regard him as being exceptionally qualified for the office. Stratton's attitude in the matter is not known at this time as no announcement has been forthcoming from the former secretary of state. Republicans, it is reported, want the Ingleside man to become a candidate for the state secretary office in 1936.

Bureau to Plan for Music Tournament

The Lake County Farm Bureau has called a meeting to be held December 11 at the Bureau's headquarters at Grayslake at eight o'clock to consider plans for holding a music and drama tournament in Lake county. David Lindstrom, specialist in rural sociology at the University of Illinois, will preside at the meeting.

Representatives of the several communities of the county are urged to attend.

TAXES—THEN MORE TAXES

The purchaser of a loaf of bread, according to the National Investment Transcript, pays 17 kinds of taxes when he lays his dime on the counter.

If he walks home on leaving the store, he is wearing out shoes which are taxed 23 times.

If he rides in an automobile, he is paying 42 different kinds of taxes.

If he takes a subway or an electric car, the total number of visible taxes which are part of the cost of his fare runs to about 58.

All of these taxes, obviously, are indirect—and very few of us know that we pay them. As the Transcript says, "Tax ignorance is the crowning element in mass ignorance today." Most of us pay few or no taxes directly—and we think because of that we are contributing nothing to the cost of government.

There is not a thing in the world that isn't taxed. The house we live in represents a legion of taxes—running all the way from taxes on standing timber to taxes paid by the store which sold the finishing paint and the manufacturers which produced it. Food, clothing, transportation, entertainment, periodicals, books—the tax bill is a substantial item in their cost to the consumer.

It is obvious that these indirect taxes—which provide the bulk of governmental revenue—fall more heavily on persons of moderate means than on those with higher incomes. A loaf of bread will last a millionaire as long as it will a laborer—and the tax is the same on the loaf each buys. Tax reduction would be the greatest boon the average American could have—a boon that would at once be reflected in more jobs, more purchasing power, more spending for the necessities and luxuries which keep the industrial machine turning.

We will have tax reduction when we spend less tax money—and not until then. Only massed public opinion, backed up by knowledge of the facts, can bring it about. The cost of government can and must be reduced—all the way from Washington down to the smallest hamlet in the land.

WHO OWES WHO A LIVING?

After it is all said and done, any recovery program depends upon business, industry and agriculture.

Every government expenditure is financed by money that is taken from the earnings or reserves of business, industry or agriculture. With no earnings to be taxed, government must go bankrupt.

It is useless to blind ourselves to the fact that today industry is afraid of radical legislation, radical labor policies and radical taxation.

Under the guise of "social service" plans a lot of people are being made to think that somebody owes them a living. That's the "grasshopper theory." It works fine until winter comes.

The fad of social service can live on existing "crops" (productive wealth) until it has eaten it all up like the grasshopper did the seasonal crops and then the beneficiaries of the "service" plan die like the grasshoppers unless they rustle some food. It's just the law of nature. Try to beat it and see where you land—out in the cold like the grasshopper.

Conferences are being held in this nation to devise means of promoting social security to lessen fear of unemployment, deprivation and dependence. All men regard that goal as most desirable. The great danger is that overly enthusiastic theorists will allow their hopes to dominate their good judgment and smother the individual thrift.

At such times they should be guided by the lowly grasshopper who found out that no one owed him a living—and that if he wished to share in the stored labor of others he had to fiddle for the food he received.

THE AGRICULTURAL CRISIS

"If the farm people of America do not reshape their own destiny, it will be reshaped for them by other people," said Clarence Poe, editor of Progressive Farmer and Southern Ruralist, recently. "A crisis is on for agriculture, and there is need as perhaps never before that each man (1) inform himself, think seriously, and try to reach sound conclusions, and (2) join with other farmers and farm women in farm organizations so as to put the power of organized effort

behind whatever policies the 'common sense of most' indicates are wise.

"The humblest man in this way can make his influence count for good."

In that statement, Mr. Poe has caught the spirit that underlies farm cooperative organizations. They are, primarily, dealers in agricultural products. They are likewise great educational agencies. They disseminate knowledge. They cause farmers to think and ponder the problems of the hour. They are not satisfied with having problems settled by outside agencies—they know that, in the long view, real farm progress must come from the farmer himself, from cooperation and unceasing work designed to forward the best interests of all concerned.

The farmer of today has, in cooperative action, a great opportunity—an opportunity that has already achieved much, and that offers much more. That is why more and more of them are working together to solve their common problems.

FOR A SAFE HOLIDAY SEASON

The Holiday Season is designed to bring joy and happiness—but it likewise brings with it a vast amount of preventable misery, because of the accident toll. The gravity of the problem is magnified by the fact that a large percentage of Holiday accidents involve children. Hundreds of them are killed and thousands are needlessly injured every December.

Here are a few rules, issued by the National Safety Council, to help pass a safe and happy Christmas Season:

Don't permit children to play in the streets—the old practice of hitching sleds to automobiles is especially hazardous.

Be extremely cautious in the matter of ice-skating—ice must be at least four inches thick before it can be trusted to sustain a large group.

Winter brings special automobile hazards, such as ice and snow, poor visibility and soft highway shoulders. Remember them—and drive accordingly.

Don't use candles on your Christmas Tree—don't put it near a stove—don't use inflammable trimmings—don't permit it to dry out in the house after Christmas—don't fail to anchor it firmly—don't use light bulbs of greater strength than one firely candlepower.

These little hints are simple enough—there's nothing but common sense behind them, and they will cost nothing, in either time or money, to follow. And they may be the means of saving the lives of loved ones.

RECOVERY AND REFORM

In a recent editorial, the Saturday Evening Post said: "Most sound business men—and we are in hearty agreement with them in this respect, too—do not believe that recovery must precede reform. They know that recovery and reform must go hand in hand. Crooked practices cannot be condoned, and they have no sympathy with them. But they believe that they must be corrected by law and by law that will cure, not kill. . . ."

Any reform movement that is to honestly benefit the public must protect the innocent as well as punish the guilty. It is regrettably easy, in seeking to drive out the crooked practices of which the Post speaks, to hamstring legitimate endeavor at the same time—to crucify the good business man as well as the industrial racketeer. And when that is done, the nation inevitably feels the adverse effects, and recovery, as well as real reform, receives a serious set-back.

It is a fact that American business, by and large, is honest, ethical and honorable. It is likewise a fact that an overwhelming majority of business men are wholeheartedly in favor of efforts to rid the nation and business of degenerating influences. These business men may be trusted to cooperate with any agency that has these purposes in mind. But business, and the thinking public, does oppose, and justly, laws and campaigns that mistakenly believe that reform can be achieved by lumping the wheat with the chaff, and damning industry, business or profession because of the dishonesty of a few within its ranks.

The government's great housing campaign is beginning to show results.

Construction touched bottom in 1933, when, during an average four weeks, only \$18,000,000 was spent, as compared with \$59,000,000 during a similar period in 1931. The new campaign started in the middle of August, and in the four weeks following \$19,000,000 was spent. In the four weeks ending October 13, \$29,000,000 went into homes, and \$36,000,000 was spent during the four weeks which closed on November 10.

It is estimated that more than 1,000,000 homes, involving an expenditure of \$8,000,000,000 would have been built had there been no depression.

Antioch Royal Neighbors in Year's Membership Drive

Camp No. 459, Royal Neighbors of America, of Antioch, Ill., is taking part in the 40th anniversary membership campaign of the fraternal benefit society. The campaign opened Sept. 1 and closes May 31, 1935.

Special significance is attached to the campaign as it will serve as an observance of the 40th anniversary of the chartering of the organization as a fraternal benefit society. The 40th anniversary occurs on March 21, 1935 and states reaching their quotas before that date will receive honorable mention.

Prizes will be awarded throughout the campaign. These include cash awards to individual members, camps and district deputies and regalia prizes to camps for obtaining new adult and juvenile members.

The anniversary membership effort recalls five outstanding events in the history of the fraternal organization. These are: Inception of Royal Neighbors of America as a social order in Council Bluffs, Iowa, on November 28, 1888; chartering of the organization as a fraternal benefit society on March 21, 1895 by the state of Illinois; establishment of the juvenile department on March 21, 1918; dedication of the new supreme office

dinner guests at the home of their uncle and aunt, Mr. and Mrs. August Schmidt, Woodstock, Ill.

THE LAWYER EXPLAINS

By Attorney Bernard J. Juron

ADMINISTRATOR AND EXECUTOR

There is a considerable amount of confusion existing in the minds of the average persons, with reference to the terms, "Administrator" and "Executor"; yet each has a separate and distinct meaning, which, if properly understood, has a significance of a different nature.

The term "Administrator" is applied to persons appointed by the Probate Court to administer the property and effects of a deceased person. Such person, as administrator, is required by law to distribute such property in strict accordance with the provisions of the law applicable to property of persons who die, leaving no will. In such cases, the various shares and proportions of the widow and children or parents, brothers and sisters, and other relatives, are exactly stated by the law. The term "Executor" is applied to

a person whose appointment is confirmed by the Probate Court, to act as the executor of a deceased person's estate. An executor is the choice of the deceased person, while an administrator may be a person of the choice of the Probate Court or some of the heirs of the deceased. The executor carries out the orders and instructions as provided in the will of the deceased person deferred to by the Courts as the "Testator" and if female as "Testatrix." Likewise, a male person is called an administrator and a female person an administratrix.

At the time of the winding up or closing of an estate by an executor, he must account to the Probate Court and show that all the terms of the will have been carried out specifically as directed. In that event, the Probate Court approves the account, and discharges the executor from further duty.

The procedure is somewhat identical with an administrator, except the Court then determines that a division of the property or estate has been made in accordance with the law known as the "Statute of Descent and Distribution."

In the next issue we shall take up the question of New Trial.

\$7,000 IS GOAL FOR
CHRISTMAS SEAL SALE

13,000 letters left the office of the Lake County Tuberculosis Association on Thanksgiving Day containing Christmas Seals for 1934. People all over the county are urged to buy and use these seals and in that way give their support to the County Association.

Additional seals may be obtained from the office in the Court House. The people in Lake County have always given their loyal support to the Tuberculosis Association and it is hoped that this year the sale will prove even more successful than in the past. People living in this county, even though working in other counties, are asked to buy their seals in Lake county for only the seals bought in Lake county support our arate organization.

A goal of \$7,000 has been set for work. Each county maintains a separate year.

Railway Express Agent
Foresees Increased
Holiday Shipping

Confident that improved business conditions will be reflected by greatly increased Christmas buying and shipping, this year, local Railway Express agencies are preparing for an extremely busy holiday season.

"We will make deliveries on Christmas Day," George Kuhaupt, agent of the Railway Express Agency in Antioch, announced today. "We are priming ourselves for the usual last minute rush and no home will be disappointed, even if shipments do not reach here until the 25th."

Never before have the American public had a wider variety of practical and colorful gifts of all kinds to select from than is now available in local stores and shops, in Mr. Kuhaupt's opinion.

They must not be on relief, must have family responsibilities, drive their own cars and be residents of this county in good standing. It took a former locomotive mechanic 3 years to reach \$500 a month; a former milk-wagon driver got beyond that in 10 months; two civil engineers have entered the \$6,000-a-year class in 2 and 2½ years respectively. All start small, but we train and help you. Write, stating age, giving phone number, and briefly outlining qualifications, addressing P. O. Box 554 Highland Park, Ill.

Simonson Found Guilty
On Assault and Battery
Charge; Fined \$3.00

A jury of five men Tuesday returned a verdict of guilty of assault and battery against Edgar Simonson in the court of Police Magistrate Joseph C. James and a fine of three dollars and costs was assessed from the defendant.

The case went before Justice James on a change of venue from the court of Justice of the Peace Wm. Regan who issued the warrant.

Simonson's arrest on a charge of assault and battery followed difficulty between Simonson and Robert Brogan on Halloween night when the former was acting as special policeman. Brogan, it was brought out in evidence, was ordered by the policeman to return a trailer which he and other lads of his age was pulling through the streets. Simonson followed the boys and stopped them on Harden street where young Brogan was pulled from the car he was driving and given a severe pummeling by Simonson. Brogan's father, John Brogan, Antioch night police, then secured the warrant for Simonson's arrest.

Assistant State's Attorney Okel Fuqua represented the state in the case, and Attorney White from the office of Runyard & Behanna was counsel for Brogan.

Anthony Leable Dies
At Newport Poor Farm

Funeral services for Anthony Leable, 76, were held from his late home in Newport township Monday afternoon with the Rev. Loyal V. Sittler, pastor of the First Methodist church of Antioch, officiating.

Born in Austria in 1858, the deceased came to this country with his parents when two years of age. After residing in Palatine for a year the family moved to Newport which has been his home continuously until his death. For twelve years he was section foreman for the Chicago, Milwaukee & St. Paul railroad. He then took up farming which was his occupation for the last 45 years.

Mr. Leable and his wife, the former Lena Sophie Foge, to whom he was married in 1884, celebrated their golden wedding last June.

They were the parents of eight children, all of whom are living except one son, George, who died when 31 years of age.

in Accidents

As Miss Greer, the high school librarian, was riding home with her brother last Wednesday, an accident occurred about a half-mile past Hickory Corners. Dusk made it difficult for Mr. Greer to see a horse that stood in the road, and although he tried to avoid it by swerving left, his attempt was unsuccessful and he hit the horse. The side of the car was caved in and the body was ruined. Miss Greer's collar bone and three vertebrae were dislocated but Mr. Greer escaped injury. The horse had to be killed.

As Mr. and Mrs. Von Holwede were returning from Chicago, they met with a slight accident.

While driving north on Ashland Avenue, nearing Clark street, a horse pulling an ice wagon began to walk into the path of Mr. Von Holwede's car. He could not turn left because of the cars coming from the opposite direction. Mr. Von Holwede's car was going about 35 miles an hour and an accident was unavoidable. After breaking the horse and wagon apart, colliding with the wagon, Mr. von Holwede found that there was no driver in it. He also discovered that the front of his car was ruined. The driver of the wagon appeared in a few minutes and promised to settle with Mr. Von Holwede, although no action has yet been taken.

Sequoia Heavies Win;
Lightweights Lose

The Antioch basketball teams won and lost last Wednesday night, the heavyweight squad taking the Warren heavies to the tune of 25-21, and the lightweight squad losing 23-18. The heavies led 15-9 at the half and were never behind throughout the game. They displayed a magnificent game of stalling that will go hard on any team who permits the local lads to attain a fairly large-sized lead. Bishop, Steffenburg, and Hawkins led the scoring with three baskets apiece. The seconds were not the team they were over at Warren. Lack of organization and poor team work in general were the factors responsible for their caving in to a really improved and fighting group of Warren lightweights.

ADVERTISEMENT FOR BIDS
VILLAGE OF ANTIOCH
LAKE COUNTY, ILLINOIS

Submission of Proposals

Sealed proposals for the construction of approximately 922 lineal feet of 8 inch internal diameter sewer, 3 manholes, an underground sewage pumping station, 528 lineal feet of 6 inch internal diameter cast iron pipe discharge sewer, and certain other appurtenances will be received by the Board of Local Improvements of the Village of Antioch, Lake County, Illinois, at its office in the Village Hall in Antioch until two P. M. on the 18th day of December, 1934, at which time the said proposals will be publicly opened and read in a meeting of said Board of Local Improvements. Proposals shall be submitted on forms provided by said Board and shall be sealed in envelopes marked "Sealed Proposal for the Construction of Sewer." Each sealed proposal shall be accompanied by the bids of all sub-contractors, if any, which bids shall be enclosed in a separate envelope bearing the name of the principal bidder and the words "Bids of Subcontractors."

Location and Character of the Work.

The work shall consist of furnishing all necessary labor, materials, equipment, machinery, and tools for the complete construction of an 8 inch, internal diameter, vitrified clay pipe sewer in Spafford Street from the center line of Harden Street northerly a distance of 487 feet, including two manholes and other appurtenances, and an 8 inch, internal diameter, vitrified clay pipe sewer in Harden Street from the center line of Spafford Street easterly a distance of 435 feet, including one manhole and other appurtenances. Also included in the work is the furnishing of all labor, materials, equipment, machinery, and tools for the complete construction of an underground sewage pumping station provided with two non-clogging sewage pumping units and certain valves, piping, electric wiring, and all other necessary appurtenances and for the complete construction of a 6 inch, internal diameter, cast iron pipe discharge sewer to be constructed in Spafford Street from said pumping station northerly a distance of 528 feet to and discharging into an existing manhole located on the center line of Spafford Street at a point 758.4 feet southerly of the south line of Lake Street in

the Village of Antioch, Illinois.

PWA Project.

Payment for the work will be made partly in cash to be secured by the Village from a grant of the Federal Emergency Administration of Public Works and partly in special assessment bonds to be issued in connection with this project. Consequently all PWA requirements in regard to construction work so financed by the Federal Government shall be complied with. Attention of bidders is called to Bulletin Number 2 of the Federal Emergency Administration of Public Works as revised on March 3, 1934. Bidders shall sign and submit with their proposals certificates of compliance with the National Industrial Recovery Act on U. S. Government Form No. PWA 61.

Bidders.

Bidders shall be skilled in the character of the work bid upon and shall have actually performed work of the same nature. The professional, financial, and ethical records of bidders will be obtained from the Bureau of Contract Information, Inc., 729 Fifteenth Street, N. W., Washington, D. C. Prospective bidders should file records of their qualifications at once if they have not already done so. Write to the Bureau for its questionnaire for contractors.

Proposal Guaranties.

Each proposal shall be accompanied by cash, certified check, bank cashier's check, or bank draft payable to the order of George B. Bartlett, President of the Board of Local Improvements of Antioch, Illinois, for 10 per cent of the total amount of the bid as a guaranty that, if awarded the contract, the bidder within 20 days thereafter will execute the same and will also execute and deliver to said Board of Local Improvements a surety bond for the full amount of the contract to guarantee the faithful performance thereof and the payment of all bills for labor and materials used in connection with the fulfillment of the terms of the said contract.

Acceptance or Rejection of Bids.

The Board of Local Improvements of Antioch reserves the right to reject any or all bids or to accept any bid which said Board may deem most advantageous to the Village of Antioch.

Plans and Specifications.

Plans, specifications, and proposal blanks may be obtained from the Clerk of the Board of Local Improvements at Antioch, Illinois, or from James Anderson Company, Engineers, 290 East Dearpath, Lake Forest, Illinois. A deposit of Five Dollars (\$5.00) will be required on the plans and specifications; one-half of this amount will be refunded if the plans and specifications are returned to the Engineers in good condition within 15 days after the date set for the receiving of bids.

By authority of the Board of Local Improvements of the Village of Antioch, Illinois, this 4th day of December, A. D. 1934.

(signed) GEORGE B. BARTLETT

President.

Attest: R. L. MURRIE,

Clerk.

AMUSEMENTS

"J. B." to Present
Drama of Merit

"Pat Piper's Place" is the title of an exceptionally good play to be presented by the J. B. Rotnour players at the Crystal Theatre, Antioch, Friday night.

The Crystal has been packed to overflowing at the first two appearances of the company in Antioch, and those who want a good seat are advised to go early Friday night. Many Antioch merchants are giving free tickets with each cash purchase. These merchants' complimentary tickets and a 10 cents service charge at the box office will admit to the show.

"Flirtation Walk" at the
Gateway Theatre

There is one musical and dance director who has an entirely new slant on the business of producing screen extravaganzas!

He is Bobby Connolly, the famous New York producer and director, whose first big screen effort is "Flirtation Walk," the First National musical which comes to the Gateway Theatre on Saturday and Sunday, Dec. 8 and 9, with Dick Powell, Ruby Keeler and Pat O'Brien in the stellar roles.

It is Connolly who directed the lavish Hawaiian sequence of "Flirtation Walk," as well as the entire "Hundredth Night" West Point Play that takes up the latter portion of the picture.

At least half of the gorgeous young beauties who appear in the musical sequences of the picture are girls with no previous stage or screen experience!

Connolly believes that inexperienced girls are far easier to direct, more spontaneous and more charming than girls who have appeared in other musical comedies or films.

Before Connolly started casting for the picture, he let it be known that experience wasn't necessary for a girl to get a spot in "Flirtation Walk."

At least half a dozen of the girls finally selected were Los Angeles college students. There was a waitress, whom Connolly had spotted in a Santa Barbara restaurant. An-

other was the sixteen year old daughter of a studio electrician, whose father had heard of Connolly's call for inexperienced girls.

One girl was a visitor from Texas, who had succeeded in getting a pass to "see the studio," and who had no definite idea of going into the movies.

"Flirtation Walk" is a thrilling romance of glorious youth with a mammoth musical setting, the action taken in Hawaii and West Point.

There is an all star cast which includes besides Powell, Miss Keeler, and O'Brien, such talented players as Ross Alexander, Glenn Boles, Henry O'Neill, John Arledge, Guinn Williams and John Darrow.

The program at the Kenosha Theatre for Saturday and Sunday includes "Passing Revue," a gorgeous stage production with 40 people, and Ann Shirley and Tom O'Brien in "Ann of Green Gables," on the screen.

Mr. and Mrs. George Mitchell and daughter, Helen Anne, Mrs. Harriet Mitchell, all of Chicago, and Mr. and Mrs. James Kerr were guests of Mr. and Mrs. William Weber on Thanksgiving day.

Miss Bojan Hamlin spent the Thanksgiving holiday with her parents, and on Friday she and her mother, Mrs. Frank Hamlin, and aunt, Mrs. Anna Pierce, spent the day in Chicago. Miss Bojan is a student at Kemper Hall, Kenosha.

Mr. and Mrs. Eugene Sheehan were guests of the William Sheehan family at Mundelein last Thursday.

The Royal Neighbor Officers' Club met Monday afternoon with Mrs. Fred Hamlin, and Mrs. P. Avery and Mrs. C. Hamlin were co-hostesses. It was a "Backward" party and prizes for the games of "500" were awarded to winners of low scores instead of high ones. Mrs. Anzinger, Mrs. Ruth Sheehan, Mrs. Shunneson, Mrs. Nickerson, Mrs. B. Galger and Mrs. Jensen were awarded prizes. Tuesday evening, Dec. 11, is election of officers and all members are urged to attend.

James Atwell celebrated his 88th birthday at his home here on Sunday in a very quiet manner, though a number of friends and relatives came in during the day to offer congratulations. Among them were Mr. and Mrs. Charles Wilson of Zenda, Wis., Mr. and Mrs. Clifford Glosser and Miss Mildred Glosser of Maywood.

On Wednesday evening Lloyd Atwell, only son of Mr. and Mrs. Arthur Atwell, was married to Miss Ethel McGuire of Millburn at the home of the bride in the presence of about twenty relatives and close friends. The happy couple will make their home with the groom's parents, as Lloyd is associated with his father on the farm, and the best wishes of a host of friends go with them in their new life.

John Cribb and family spent Thanksgiving with his son, Harold and family, in Waukegan.

Miss Mary Kerr went to Millburn last Thursday to spend the day with her sister, Mrs. Alice Spring.

Nellie Hamlin is very ill at her home and Miss Steffler, a trained nurse, is caring for her.

The Lake Villa Woman's Club was hostess for the Lake County Federation group at Allendale on Tuesday afternoon, and a good delegation was present from each club in the county. Mrs. Grimm of Grayslake, who is County President, presided and introduced the speakers, among them being Mrs. Bird of Libertyville, who spoke on Welfare; Mrs. Louis Diamond of Waukegan, who spoke on Institutions; Miss Genevieve Pfister of Grayslake spoke on the new Federal Housing Plan and explained it in detail. Music was furnished by Miss Nelson of Antioch High School, who sang, and by Miss Masterson of Lake Villa school, who accompanied on the piano for Virginia Hadad and Vanita Philippi, who played cornet and saxophone. The Lake Villa club served coffee and cookies, and all enjoyed a very pleasant afternoon.

Mr. and Mrs. Clare Sherwood and Don returned from Florida this week, after deciding that Lake Villa was the best place to spend the winter after all.

Designating Labor Day

On June 28, 1894, President Cleveland approved a bill designating the first Monday of September in each year, the day celebrated and known as labor's holiday, "a legal public holiday to all intents and purposes as Christmas, the first day of January, the 22nd day of February, the 80th day of May and the Fourth of July are now made by law public holidays."

Bees Raid Sugar Refinery

Millions of bees recently raided the sugar vats of the sugar refining works in a suburb of Auckland, New Zealand. Workmen, attired in light clothing because of the great heat, attempted to rout them, and were seriously stung. Thousands of bees were drowned in the sirup and refining had to be stopped until the dead of battle were removed.

Weapons of Wasps, Bees

Wasps and bees are equipped with the most formidable weapons of defense of all insects. Many insects can bite and puncture with their mouth parts, but they can't do it as handily, neatly and effectively as the wasps can puncture with their sting. The sting of the common social wasp or bee is simply a weapon of defense which is not used so long as the insects are not disturbed or threatened with injury.

If You Want to be Peppy Eat Bread

Bread is a vitality food. It gives pep. The wise person will eat some kind of bread daily.

There is something about hot rolls, gingerbread, nut loaf, or what-have-you, which is undeniably festive and heart-warming. If your family seems particularly demanding and unappreciative, try whisking together some rolls for the next meal. It'll help a lot. Here is a favorite hot roll recipe:

Five Hour Hot Rolls

(Makes 15 to 24 rolls)

- 1 cake compressed yeast softened in 1/4 cup lukewarm water
- 1 cup milk scalded and cooled
- 1 teaspoon salt
- 2 tablespoons sugar
- 2 tablespoons melted butter
- 2 eggs
- About 3 1/2 cups flour
- Few drops vanilla.

Bring the milk to a boil and then stand it aside until it cools to a lukewarm temperature. Crumble the yeast into lukewarm water and allow to stand for a few minutes or until you are ready to mix the dough. After you have let this stand for a while put the lukewarm milk, sugar, salt, half the flour and the dissolved yeast into a deep bowl and beat them all together until bubbles come to the surface of the dough. The melted butter and the rest of the flour is then added and either worked with a spoon until the dough is smooth or turned on a floured board and kneaded for a few minutes until smooth and elastic. After kneading, the dough is put into a warm, greased bowl, covered with a lid or folded cloth, and put in a warm (not hot) place to rise. It is left there until it is twice its original size. This will take about two hours. If the dough is kept lukewarm and the yeast is not cut down. As soon as the dough has risen to about twice its original size, punch it down until all the bubbles are out of it. About four or five punches will usually complete the job.

A second rising takes but an hour and again the dough must be kneaded. A third rising of about fifteen minutes improves the texture of the bread. The dough is then ready to make into rolls. What kind? Well, any one of a dozen or more kinds of which you are fond.

Regardless of the type to be made, however, first put the dough upon a floured board and roll it with a floured rolling pin until the gas bubbles seem to be well out.

Potato Bread.

- 2 cups dry mashed potatoes
- 1 cup water in which they were cooked

- 1 tablespoon salt
- 1/2 cup lukewarm water
- 2 tablespoons sugar
- 1 tablespoon fat.
- 1/2 to 1 cake compressed yeast
- 5 1/2 to 6 cups whole wheat flour.

Put in pieces and cook in boiling water until tender. Drain the water from the potatoes, but save the potato water to use as moisture for the dough, and for mixing yeast. Mash potatoes; add the potato water, salt, sugar and fat. Then proceed as usual.

Date Muffins.

- 1/3 cup butter or lard
- 1/4 cup sugar
- 2 level teaspoons baking powder
- 3/4 cup milk
- 2 cups flour
- 1/4 level teaspoon salt
- 1 egg
- 1/4 pound dates

Cream shortening and add the sugar gradually and the dates chopped fine. Mix well together, then add the beaten egg. Sift the flour, salt and baking powder together and add to first mixture alternately with the milk. Bake in greased muffin pans 20 to 25 minutes in a hot oven (400 degrees F.).

Entire Wheat Bread

Melt 1 tablespoon lard in 4 cups hot water, add 1/2 molasses. When cool add 1 yeast cake dissolved in a little water and sugar. Mould in a large loaf, with 2 cups entire wheat flour and 2 cups of raisins. Let rise till very light, form in three loaves. Let rise again and bake.

Steamed Brown Bread

- 2 cups graham flour
- 1 cup wheat flour
- 1 cup molasses
- 1 1/2 cups sour or buttermilk
- 1 heaping teaspoon soda
- 1 egg
- 1 cup raisins
- 1/2 teaspoon salt
- Steam 2 1/2 hours. Slip from cans and dry in oven.

Ice Box Rolls

- 2 cups boiling water
- 2 large tablespoons lard
- 1 tablespoon salt
- 1/4 cup sugar

Cool, then add 2 beaten eggs, 1 cake yeast with 3/4 cup lukewarm water and 1 teaspoon sugar, about 7 or 8 cups flour. Soft dough, while put in ice box and stand only over night. Make into rolls, bake all or part as wanted.

Salt Absolute Necessity

Salt is an absolute necessity to human life because it is necessary to form the hydrochloric acid in the stomach.

OUR CHILD AND THE SCHOOL

By Dr. ALLEN G. IRELAND
Director, Physical and Health Education
New Jersey State Department of Public Instruction

Basketball

A good game to play and a great game to watch, but what strenuous activity it can be! Indeed, some coaches regard it as the most strenuous of our popular sports.

Disregarding that point, we do know that it is full of possibilities for strain, particularly upon the heart. Fortunately, most boys and girls playing basketball are under adult supervision or we would see far more damage than is actually the case. And fortunately too, the practice of requiring medical examinations of all team candidates is becoming quite general.

If this is not the case in your community, and you happen to be the father or mother of a growing boy or girl, I urge you to give some thought to the situation. Discuss it with your family physician and with the school principal. Let us get the wrong idea, may I emphasize that it isn't the game that is at fault nor would I have it discontinued anywhere. The points to consider are these: the child, his health, strength, fitness, heart condition; the frequency of playing; the length of the game or practice period; and the size and abilities of the other players.

In other words, we should always be sure that the game is suitable to the individual child, and that it isn't overdone. We must be sure, too, that correct diet and ample sleep are accompaniments of any strenuous sport.

The value of fresh milk as a healthful food, and how a problem concerning it was met in one community, will be the subject of Dr. Ireland's next article.

Operated by Mouse Power

In the Nineteenth century, a man in Scotland perfected a machine that was operated by mouse power. Running in revolving cages, the mice manufactured sewing thread, twisting and reeling 20 feet a day, writes W. T. Hogue, Denton, Texas, in Collier's Weekly. The inventor was building a mill to use 10,000 mice when he died. Apparently he never realized the work involved in putting them in and taking them out of 10,000 cages each day.

The Word "Scamp"

The word scamp originally signified a traveler, but three hundred years ago when a man traveled he generally had a good excuse for doing so, for few left home save when compelled, and to be a traveler was practically equivalent to being a rogue.

Cedar Lined Closet Urged In Every Home

The modern home, builders say, should have at least one closet that is cedar lined. It is a simple operation to transform one of the existing closets into such a storage cupboard by simply relining the walls and ceiling with cedar.

Before buying the material, which comes in planks a quarter of an inch thick, measure the walls and ceiling to ascertain the quantity necessary for the job.

Plaster makes a good insulator when covered, so it is not necessary to remove it before placing the cedar. To locate the studs, gently tap the plaster until the sound indicates a solid foundation, verifying this by driving a nail through the plaster. When the line of the studs and ceiling joists has been located, the cedar should be cut to the proper lengths and the lining applied from the floor up.

The cedar boards should be nailed horizontally and should cover the wall flush to the ceiling. When laying the ceiling boards, they should be placed at right angles to the ceiling joists. Proper measuring and sawing should insure a tight fit where the walls and ceiling meet. A half inch moulding along the walls at the floor and ceiling lines will hide the joints if this is desired.

My Favorite Recipes

Frances Lee Barton says:

BEFORE I would undertake to give my two oldest lads cooking lessons, I made them promise two things: First, they must tidy up the kitchen, and wash all the cooking utensils. Second, they must do their kitchen chores and errands without grumbling. This has worked like a charm. They keep their part of the bargain and I keep mine by giving them one lesson a week.

For their second lesson I chose Camp Fire Pudding, which has proved very popular as a dessert in our home.

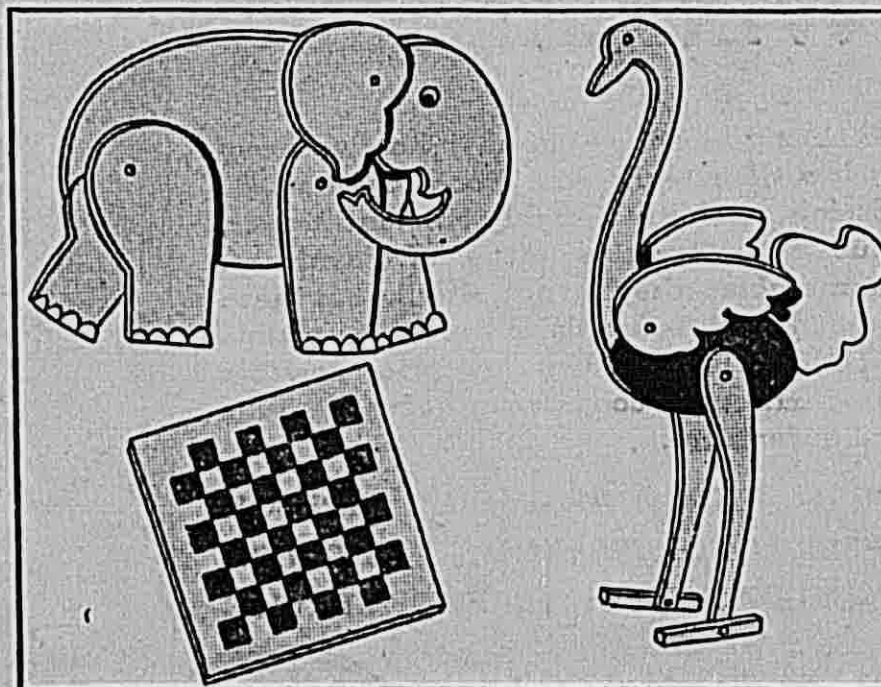

Camp Fire Pudding

- 1 package orange-flavored gelatin
 - 1 cup warm water
 - 1 cup orange juice and water
 - 2 oranges, sections free from membrane, diced, and drained
 - 8 marshmallows, quartered
- Dissolve gelatin in warm water. Add orange juice and water. Chill. When slightly thickened, fold in oranges and marshmallows. Chill until firm. Serve with whipped cream or orange sections, if desired. Serves 6.

Simple Toys and Games May Easily be Made at Home

These are but a few of the many simple and interesting toys and games that can easily be made of pressed wood by the man or boy who can use ordinary tools.

WITH Christmas fast approaching we must think of toys and games for the children. Of course the more elaborate and tricky toys will have to be purchased at the department stores and shops, but there are many simple and interesting kinds that can easily be made by the home craftsman by utilizing tempered pressed wood.

This is a material that has an unusually diversified range of use. It is extensively employed in such sturdy construction as forms for nonolithic concrete buildings. Again, it is used for the interior and exterior panelling of modern homes. Although tough and durable, the ease with which it is worked and the generous widths in which it comes makes it highly convenient to use in making shelves, simple furniture and a wide variety of miscellaneous articles.

In addition to its simple workability, this material is durable, moisture-resistant and pleasing in color and texture. If dyed, it may be painted or waxed like natural wood. It is, in fact, entirely made of waste wood by an exploding,

Hints for Homemakers

By Jane Rogers

PRESSED WOOD, especially the tempered grade, has almost unlimited uses in home improvement and decoration. A friend recently called to my attention two uses that may be of interest to others. She used it effectively to replace the bottom of a piano bench that had fallen out long ago; and now the music is no longer scattered in window sills and on chairs. She also used it to cover the unsightly top of a general utility table. Made entirely of wood and being warp-proof and moisture-resistant, pressed wood is sturdy; it yields easily to the saw and does not chip or crack under pressure of nails or screws.

HICKORY

Christmas Reminders*Dear Friends:*

Can you recall any happier moments in your life than
when, as a kiddie, you tip-toed down the stairs on Christ-
mas Morning to find that old Santa Claus had been there
—and left the long wished for toy or play-thing; truly
those were happy days, the kind of happiness it is hard
for us grown-ups to enjoy.

Then let us remember that Christmas comes but
once a year, but a payroll comes around every Saturday,
for that reason we solicit your patronage to help defray
expense of Santa Claus' board and lodging during his
short but pleasant visit with
